

Instruction Sheet For Tool #2260

Sprocket Locker Tool Use on 1980-present Belt Driven Big Twins

Use to remove all final drive belt sprockets on Big Twins.

CAUTION: Nut is a left hand thread.

1. Refer to H.D.® Service Manual for specifications.
2. To remove nut insert handle of tool on top of the pivot shaft, inboard of the bottom frame tube and attach to sprocket.
3. Snug up the thumb screw to hold tool position on the sprocket.
CAUTION: Do not allow screw to mar sprocket tooth.
4. When tightening nut, the handle of the tool will contact bottom of pivot shaft. Tighten to H.D.® specifications using JIMS® Nut Sockets Tool #94660-37A.

CAUTION: Wear safety glasses. Excessive force may damage parts and tools! See JIMS® catalog for over 100 other top quality professional tools. The last tools you will ever need to buy.
